of Cruelty to Animals

## A NOTE FROM FOUNDER AND MD TOM MACGUINNESS

### PRODUCT INNOVATION

As the seasons change from warm summer to cool autumn and into chilly winter, horse and rider are at the heart of all that we do. We're utilising innovative fabrics and ground-breaking designs to offer higher quality, durable products to your customers for every season. And did I mention they're gorgeous!

This year we have seen the market adapt to, and embrace, smart technology. The quick uptake and adoption of Horsepal® and the Horsepal® app has demonstrated the appetite for knowledge about a horse's comfort and wellness whilst wearing a rug. We showcased it at Tryon 2018 where we had a wonderful time as the Official Equestrian Clothing and Blanket Supplier for the 2018 FEI World Equestrian Games™, Tryon 2018 and our official merchandise was very well received.

The Irish Eventing team did particularly well, coming in silver position for both individual and team at WEG. This was especially gratifying considering two of the team's horses were Horseware® horses ridden by Sarah Ennis and Sam Watson. Incidentally, the last time Ireland won a medal at the World Games was exactly 40 years ago when Sam's father John won an individual silver medal at Lexington Kentucky!

I'm always looking at how to improve things and I'm very lucky to have a fantastic team here in Horseware® Ireland that possess the same passion and inquisitiveness that I do. Our Disc Front Closure system is a lightweight, strong, convenient and secure fastening system which is exclusive to Horseware®. This AW19, we're also delighted to launch the innovative Amigo® Bravo Reflectech. This product was designed by our research and development team with the horse's safety in mind. Winter are long, with daily yard routines beginning and ending in the dark. Safety of horse and rider cannot be compromised and, with the newest standard of rug reflection in the new Amigo® Bravo Reflectech, both horse and rider are protected by the incomparable reflection technology in this rug.

We hope you enjoy the new collections!

Tom MacGuinness  
Managing Director Horseware® Ireland

# THANK YOU

We would like to thank Jane De Roquancourt for welcoming us back to her estate, Kilshane house, to shoot our AW19 rug and clothing collection.

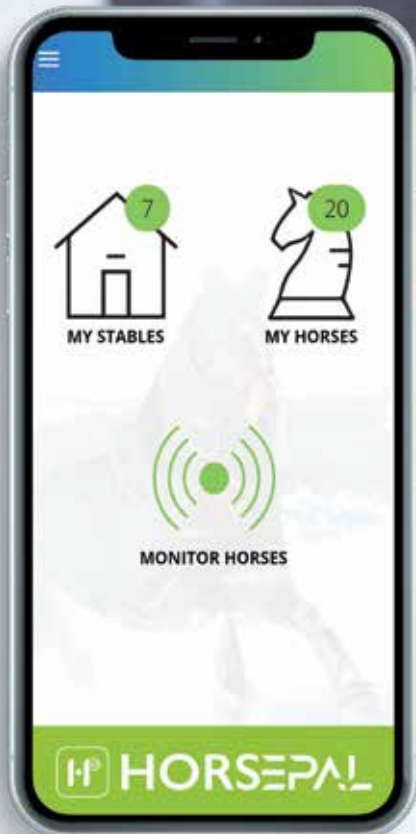

Kilshane House boasts not only stunning Irish scenery but also excellent helpers in the form of Vitaly Haliystan, who was incredibly generous with his time in managing the horses and assisting us with the photoshoot. We also extend our gratitude to Hilary and Sean Cavangh, Tara Oliver, Rachel Cooke, William and Sue Corrigan, Carolyn Birminham, Jodie Moran and their wonderful horse models.

We would also like to thank Mary, David and Melanie Marnane of Bansha House, for hosting us in her beautiful Victorian home and allowing us to capture spectacular shots with a true feeling of Irish heritage.

Once again, we are privileged to work with Marielle Anderson. Marielle brings a phenomenal level of experience and professionalism to the shoots, which always results in beautiful shots such as the ones you'll see here.

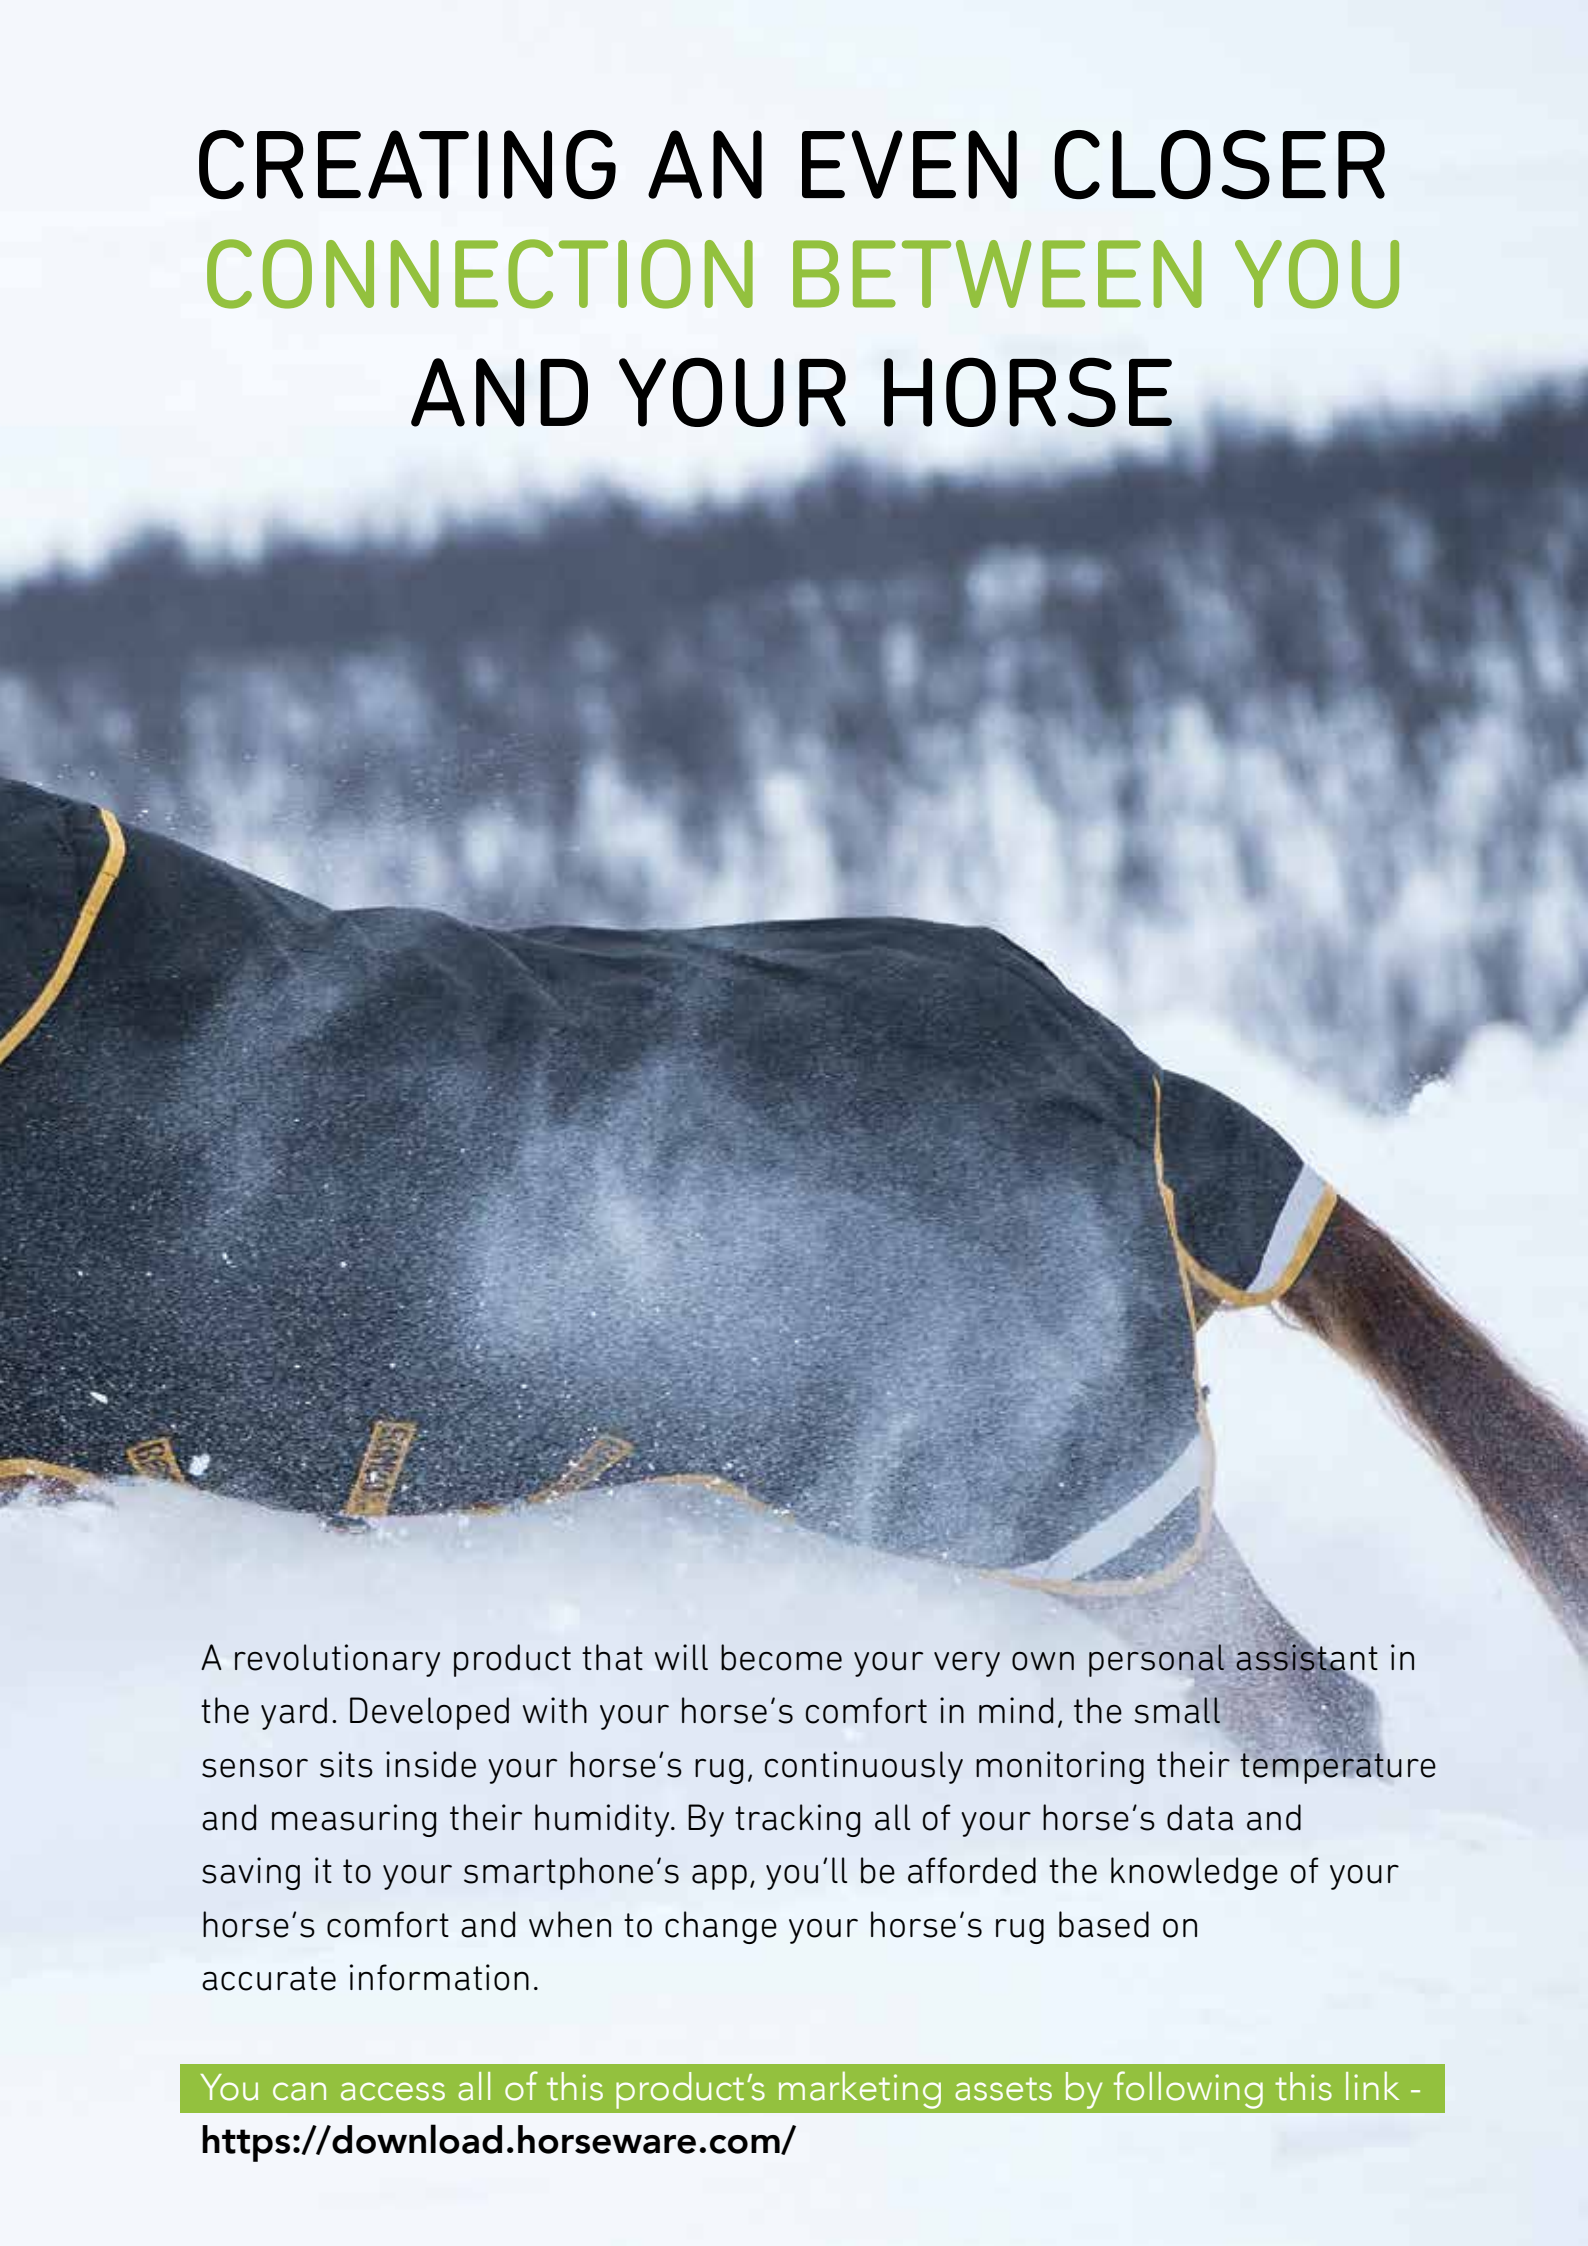

# CREATING AN EVEN CLOSER CONNECTION BETWEEN YOU AND YOUR HORSE

A revolutionary product that will become your very own personal assistant in the yard. Developed with your horse's comfort in mind, the small sensor sits inside your horse's rug, continuously monitoring their temperature and measuring their humidity. By tracking all of your horse's data and saving it to your smartphone's app, you'll be afforded the knowledge of your horse's comfort and when to change your horse's rug based on accurate information.

You can access all of this product's marketing assets by following this link -  
<https://download.horseware.com/>

# NEW AMIGO®

## THE NEW AMIGO® HERO 900D RANGE UTILISES AIR CONDITIONED YARN (ACY)

which is a major improvement in yarn technology. The process involves the yarn being air blown which gives a tighter weave using less yarn and results in an **incredibly durable and breathable rug** for your horse this winter.

You can access all of this product's marketing assets by following this link -

<https://download.horseware.com/>

# HERO *WITH* **ACY** FABRIC TECHNOLOGY

A close-up, low-angle shot of a horse's head and mane in a snowy forest. The horse is wearing a dark blue hood with a red and white trim. Its light-colored mane is blowing in the wind, creating a dynamic sense of movement. The background is a dense forest of tall, thin trees, their trunks covered in snow, creating a vertical pattern. The ground is a thick layer of white snow. The overall atmosphere is cold and serene.

# RAMBO<sup>®</sup>

“The Original and Best since 1985.”

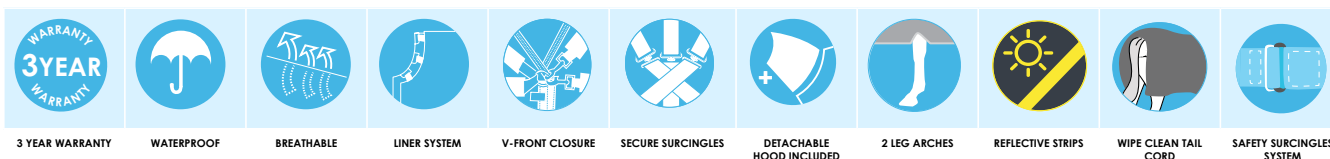

# RAMBO® SUPREME WITH VARI-LAYER®

Layered fill for more warmth, with less weight.

RAMBO  
AAAX33 450G

AAAX32 - KI00

## FABRIC

- 1000D ballistic nylon waterproof and breathable outer. Strongest, most durable turnout material on the market.
- Polyester lining, which is anti-static and anti-bacterial, with shine-enhancing qualities.
- Thermobonded fibrefill for superior and long lasting heat retention.
- Vari-layer® technology uses additional layers of thermobonded fibrefill across the back and hip for the ultimate in heat retention and comfort, with less weight.

## SIZE

- Rug size: 5'6 - 7'3 (115cm - 165cm)

## FEATURES & BENEFITS

- V-Front Closure: eliminates pressure on the shoulder allowing for more comfort while grazing.
- Leg arches: unique design to maintain freedom of movement while allowing the rug to stay secure under belly and offer additional belly coverage.
- Reflective strips for increased visibility.
- Wipe clean tail cord: elasticated PVC covered cord, easy clean, offers more flexibility to take pressure off fittings & straps.
- Liner loops: compatible with Horseware® liners allowing to easily change a rug's weight depending on the weather.
- Three secure cross surcingle that incorporates Horseware®'s unique safety system which breaks in the event of an emergency.
- Comes with detachable hood. Offers flexibility when rugging. Can remove/add hood depending on the weather/clip of horse.

# RHINO<sup>®</sup>

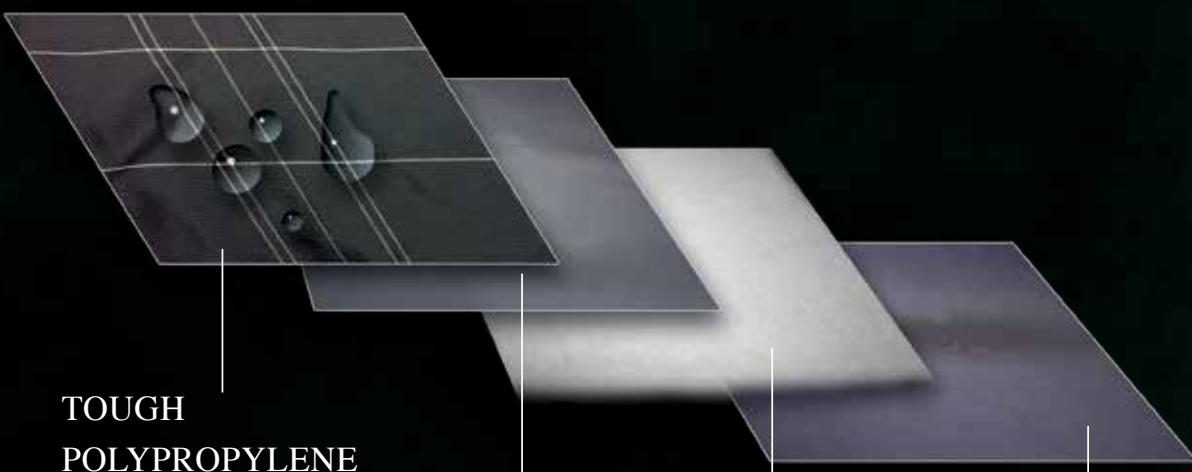

NOW WITH VARI-LAYER<sup>®</sup> TECHNOLOGY

+

3 YEAR WARRANTY

+

BARRIER TECHNOLOGY

A diagram showing the four layers of the Rhino rug: a top layer with water droplets, a middle barrier layer, a thick fibrous fill layer, and a bottom polyester lining layer. Lines connect each layer to its corresponding text description.

## TOUGH POLYPROPYLENE OUTER LAYER

The tough outer polypropylene fabric is 50-100% stronger than the coated polyester used in the majority of turnouts so the Rhino<sup>®</sup> rugs are light but strong. Polypropylene has good resistance to water allowing the droplets to sit on surface rather than be absorbed into the fabric.

## WATERPROOF BARRIER

AquaTrans<sup>™</sup> coating is applied to the barrier layer.

## COMFORTABLE THERMOBONDED FIBRE FILL

Underneath the waterproof layer, thermobonded fibre fill traps warm air to keep your horse cosy.

## ANTI-BACTERIAL & ANTI-STATIC RUG LINING

Anti-static and anti-bacterial polyester lining keeps the coat smooth and shiny.

# HORSEWARE<sup>®</sup>

IRELAND

AABWV4 RHINO<sup>®</sup> WUG<sup>®</sup> VARI-LAYER HEAVY - KIWI

# RHINO® PLUS WITH VARI-LAYER®

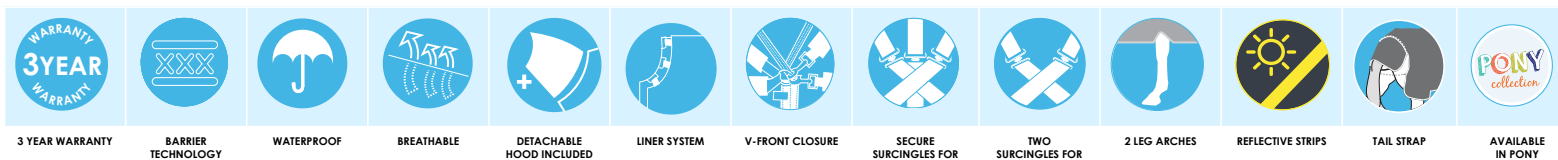

Flexible rug for all seasons, with more warmth and less weight.

AABPV4 - PRWI

AABPV3 - 250g

# RHINO® PONY ALL-IN-ONE

A seamless all-in-one design for maximum security and comfort for ponies.

AKBP93 - PRWI

## FABRIC

- 1000D polypropylene outer. Polypropylene is a stronger alternative to the widely used polyester turnout material.
- Unique barrier layer offers an additional protective waterproof, breathable layer using AquaTrans technology.
- Polyester lining which is anti-static and anti-bacterial, with shine enhancing qualities.
- Thermobonded fibrefill for superior and long lasting heat retention.

## SIZE

- Pony size: 3'9 - 5'9 (75cm - 125cm)

## FEATURES & BENEFITS

- Fully integrated neck offering one weight from ears to tail and no seams protects the horse from rubbing.
- V-Front Closure: eliminates pressure on the shoulder allowing for more comfort while grazing.
- Leg arches: unique design to maintain freedom of movement while allowing the rug to stay secure under belly & offer additional belly coverage.
- Reflective strips for increased visibility.
- Two surcingles (Pony sizes).

# STABLE

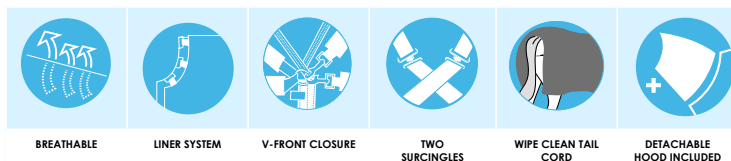

# RAMBO® STABLE PLUS WITH VARI-LAYER®

This winter's snuggest stable rug with Vari-Layer® for more warmth with less weight.

ABAR34 - BBW0

## FABRIC

- Made with strong and durable 1000D ripstop polyester outer.
- Cosy microfibre lining keeps the horse warm and comfortable.
- Thermobonded fibrefill for superior and long lasting heat retention.
- Vari-Layer® technology uses additional layers of thermobonded fibrefill across the back and hip for the ultimate in heat retention and comfort, with less weight.

## SIZE

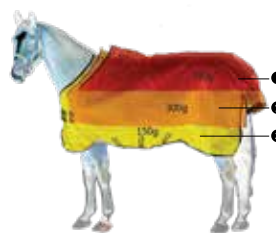

- Rug size: 5'0 - 7'3 (100cm -165cm)

## FEATURES & BENEFITS

- Surefit neck design with V-front closure to give freedom of movement.
- Wipe clean tail cord: elasticated PVC covered cord, easy clean, offers more flexibility to take pressure off fittings and straps.
- Liner loops: compatible with Horseware® liners allowing to easily change a rug's weight depending on the weather.
- Tail flap for maximum coverage.
- Cross surcingles for secure fit.
- Comes with detachable hood.

*More warmth with less weight*

*Heavy 450g*

# HEALTHCARE

# RAMBO<sup>®</sup>

## IONIC

Rambo Ionic<sup>®</sup> harnesses the power of tourmaline. A naturally occurring crystal that, when ground down to powder form, tourmaline releases an electric charge which converts the surrounding air molecules to negative ions. Negative ions are absorbed by the body and impact the size of the water molecules in the blood stream. They reduce its physical size by neutralising the water's natural positive charge which allows the water molecule to flow faster through bodies. This aids in increasing oxygen and nutrients to the muscles, which may assist with the body's ability to recover from injury and may help those who suffer from poor circulation.

***Negative ions for positive results.***

### STIMULATION

- Stimulates and regulates the circulatory system.
- Affects the configuration of water molecules in the blood, improving their hydration capacity. This makes bodily fluids more mobile, boosting circulation and aiding in pain relief.

### STRENGTHENING

- Increased oxygen levels in the blood and a faster delivery to the brain helps to improve concentration.

### SUPPORT

- Promotes more efficient removal of toxins from the body.
- Can assist in reducing inflammation.

ACJF52 - KKS0

**RAMBO**  
IONIC

## RAMBO IONIC® FLEECE

### FABRIC

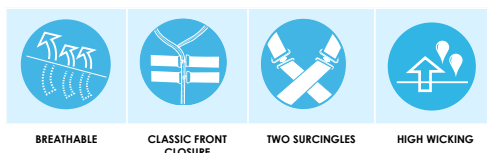

- Smooth fleece inner, infused with our Rambo Ionic® Therapy with a cotton coated outer, to promote well being.

## RAMBO IONIC<sup>®</sup> DOG RUG

RRJK60 - KKS0

### FABRIC

- Polyester jersey fabric, with wicking inner and Ionic Tourmaline printed therapy.

### FEATURES & BENEFITS

- Made from high quality and comfortable jersey fabric as the outer, and a soft inner with the Ionic Tourmaline crystal technology. Ideal for use before exercise to prepare muscles for work, and after, to help reduce any lactic acid build up caused by exercise.
- Also ideal for pets with arthritis and joint issues to increase mobility and lower discomfort caused by the conditions.

### SIZE

- Rug size: XXS-XXXL, see chart on page 157.

Product code	Colour

## RAMBO IONIC<sup>®</sup> DOG BED

RBJK70 - KKS0

### FABRIC

- 600D polyester ripstop outer, waterproof and breathable with zip for ease of cleaning. Layered thermobonded fibre removable inner.

### FEATURES & BENEFITS

- The inner fabric of the dog bed is printed with our Rambo Ionic<sup>®</sup> technology made of the crystal tourmaline. Tourmaline releases negative ions, which aids in increasing blood flow to important areas such as muscles. This brings increased levels of oxygen to the muscles to prepare for exercise and helps to clear toxins, therefore reducing any lactic acid build up caused by exercise, resulting in a calmer, more relaxed companion.

### SIZE

- S-L, see chart on page 158.

Product code	Colour
RBJK70	Black/Black & Orange - KKS0

# SPORTZ-VIBE® HORSE RUG

Designed and created by the team who brought you Ice-Vibe®, Sportz-Vibe® is a massage therapy rug for horses and dogs. Sportz-Vibe® is a comfortable, lightweight and portable massage rug. Ideal as a warm up or recovery rug, it helps to warm up muscles before work and ease soreness and stiffness afterwards.

## FABRIC

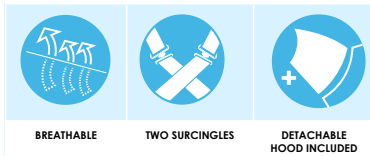

- Advanced fabric construction incorporating ring spun brushed polyester and anti-static technology.

## FEATURES & BENEFITS

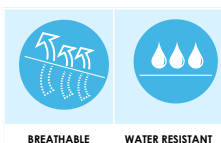

- Adjustable front allows one rug to treat 3 different sizes of horse. Elasticated surcingles allows panels to fit securely onto the animal.
- There are four areas that vibration panels can be positioned on the rug: neck, shoulders, centre back and hind quarters.
- Comes with 4 panels, battery controller, connecting cable and charger.

## RUG SIZE

- S: 5'3-5'9 (110-125cm),
- M: 6'0-6'6 (130-145cm),
- L: 6'9-7'3 (155-165cm)

- IMPROVES BLOOD SUPPLY TO TISSUE**
- RELAXES MUSCLE**

Removable massage panels target specific areas

# SPORTZ-VIBE® ZX HORSE RUG (WIRELESS)

Following the success of Sportz-Vibe®, a gentle, non-invasive massage rug, Sportz-Vibe® ZX was created to meet market demand for a completely wirelessly controlled massage rug.

SPORTZ-VIBE®  
ZX

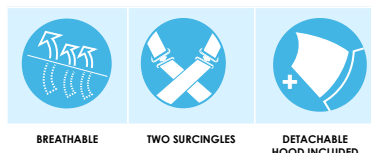

## FABRIC

- Polyester net outer.
- Lightweight mesh rug material, allows for ultimate comfort to the horse, ensuring the horse does not over heat during the massage treatment.

## FEATURES & BENEFITS

- Super breathable net outer to prevent overheating with detachable hood. Elasticated surcingles. Elasticated tail string. Panel pockets easily accessible from the outside of the rug.
- Built-in battery with a battery life indicator in each panel.
- 15 different pocket locations, for a wide range of treatment areas on the horse, including the neck, shoulder, back and hind end. Three different frequency settings, gentle, moderate and a combination gentle and moderate setting, allowing you to customize the massage based on your specific horse's needs.
- Adjustable sizing to offer three different sizes in one rug, allowing for a secure fit depending on each horse's build.

## RUG SIZE

- S: 5'3 -5'9 (110-125cm),
- M: 6'0-6'6 (130-145cm),
- L: 6'9-7'3 (155-165cm)

Product Name	Product code	Colour
SPORTZ-VIBE® ZX HORSE RUG	ADHK5V	Black/Black & White - KKW0

# SPORTZ-VIBE® ZX BASELAYER

## FABRIC

- Made with anti-static and shine enhancing stretch lycra fabric (Polyester/Spandex Mix).

## FEATURES & BENEFITS

- For the ultimate close contact fit with enhanced massage panel design and placements, the Sportz-Vibe® ZX neck and shoulder baselayer helps to warm up muscles before work and ease soreness and stiffness after work, in the targeted areas of the neck, wither, chest and shoulder.
- This baselayer comes with four massage panels (2 x disc and 2 x 4 motor panels), remote control and charger.
- The baselayer can be used in conjunction with your Sportz-Vibe® ZX rug body and panels (they will all synchronise to the one remote) to give an ultimate all round massage.

# ICE-VIBE®

CIRCULATION THERAPY

**REDUCES SORENESS AND SWELLING**

**HELPS BOOST CIRCULATION**

**STIMULATES HEALING**

- The massage effect of Ice-Vibe® encourages movement of the lymphatic system, drains inflammation and stimulates repair to damaged tissue.
- Using Ice-Vibe® before exercise can help reduce the risk of injury by increasing blood flow to the tendons and ligaments, making them more elastic.
- Everyday wear and tear on joints can be managed with daily use of the boots.
- Rehabilitation can be achieved more quickly.

## ICE-VIBE® BOOT

### FABRIC

- Neoprene outer, elasticated inner pockets, soft binding, secure Velcro.

### FEATURES & BENEFITS

- Contoured to fit the lower leg, Ice-Vibe® boots can be used on both front and hind legs.
- Stretchy pockets allow for easy insertion or removal of panels, and secure Velcro fastenings prevent slipping.
- We've updated the look and feel of the Ice-Vibe® boots, now with a smooth outer to repel shavings and beaded gel packs for optimal performance and fit.

# RAMBO® MICKLEM® HEADCOLLAR

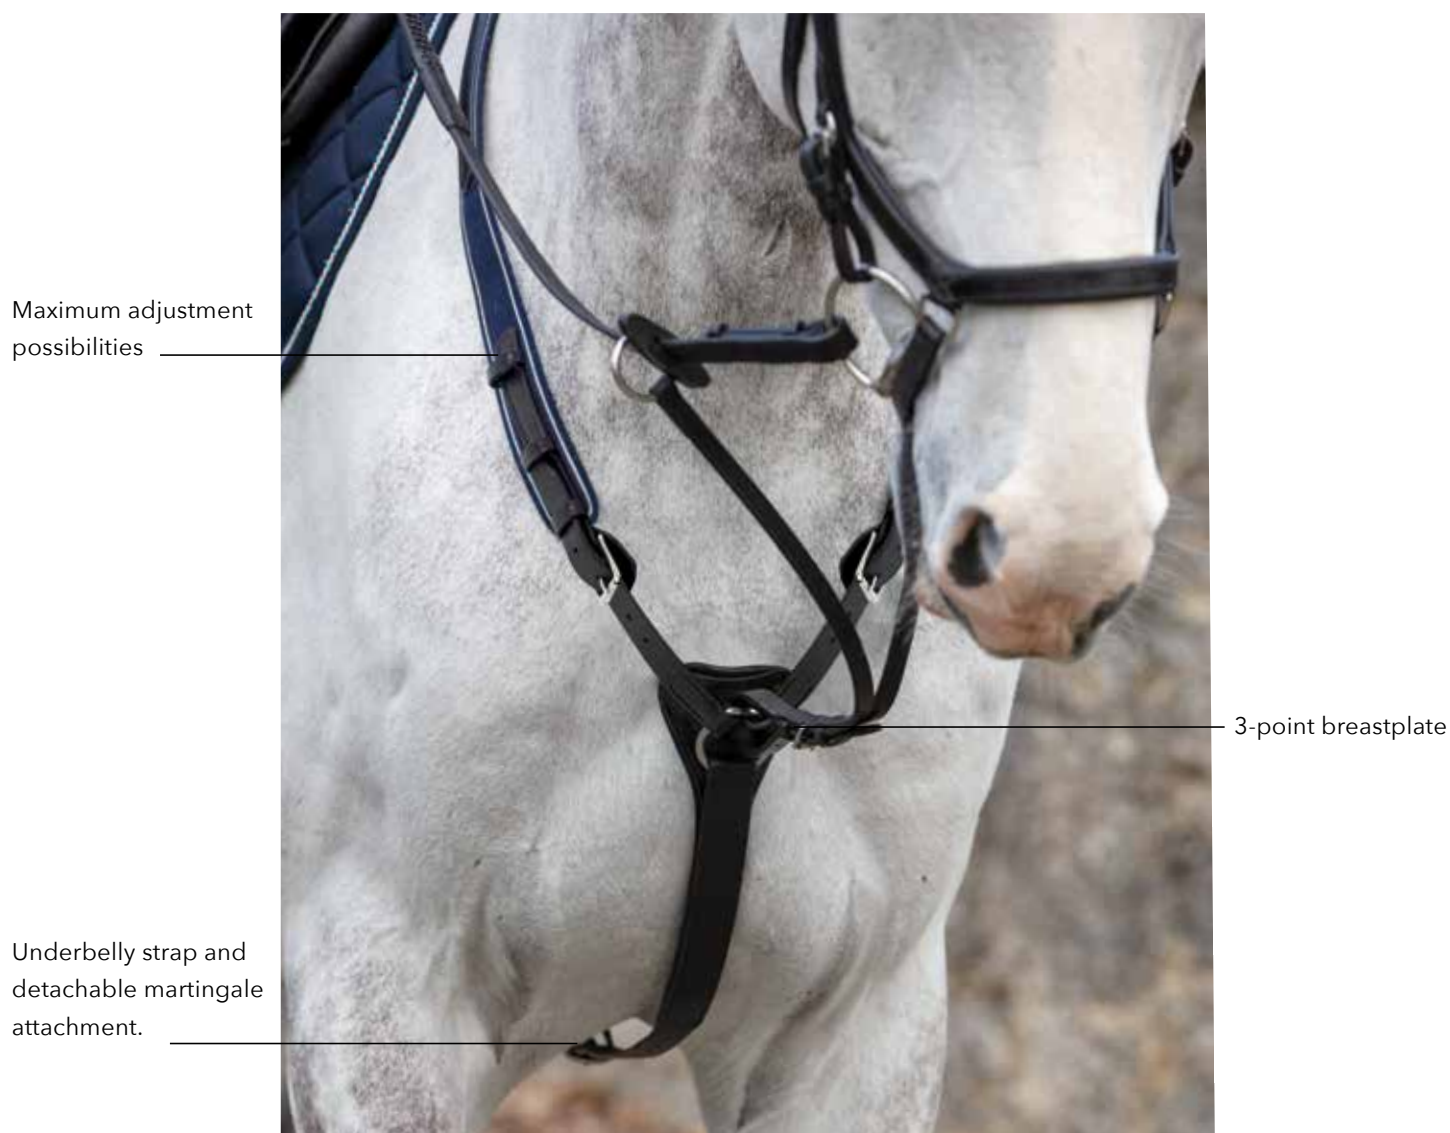

## FEATURES & BENEFITS

- This headcollar has been developed using the innovative and best-selling Micklem® Bridle design for the horse's ultimate comfort during handling and travelling.
- It includes elasticated sections in the headpiece to allow safer tying up of your horse as well as easier training of the horse to not pull back.
- The Micklem® shape allows the headcollar to avoid sensitive areas of the head, whilst the luxurious leather gives that beautiful show finish.
- It is adjustable on both sides of the headpiece as well as under the chin.

Product code	Product Name	Colour code	Size
<b>DHAL8D</b>	Rambo® Micklem® headcollar (Micklem® shape)	Black - K000	P/SC/SH/LH
		Brown - N000	P/SC/SH/LH

# RAMBO® MICKLEM® BREASTPLATE

## FEATURES & BENEFITS

- Ergonomically designed 3-point elasticated breastplate for the best in comfort and safety when jumping or out on cross country.
- We chose to work with a 3-point breastplate. They have been shown to maintain better freedom of movement than a 5-point breastplate whilst jumping.
- Maximum adjustment possibilities on the sides of the neck, underbelly strap and detachable martingale attachment.
- Extra removable safety strap included to clip across withers of the horse for the rider to hold if exercising young/exuberant jumpers or for novice riders to help with balance.
- Top clips attach to d-ring of the saddle and we have included optional attachments for the stirrup bars which give a safer and more secure attachment point without damaging the saddle.

# RAMBO® EASYUP STIRRUP

Winner of a Highly Commended BETA award in the Saddlery and Tack division. Horseware® is very proud of the innovative and easy to use Rambo® Easyup stirrup which will revolutionise riding for people with tall horses, learning to ride, or those who have issues mounting whilst out hunting or trekking.

## MATERIALS

- Lightweight high quality die cast alloy construction frame, with a shock absorbing nylon plastic footrest.

*"A lot of people are governed by the size of the horse they can ride or buy simply because they cannot mount a larger horse. This product gives you the option to look at horses that are a hand and a half taller than the one you are currently riding."*

### CHRISTY BOWE

Designer of Rambo® Easyup Stirrup

*New easy to display packaging!  
Allows the customer to touch  
and demonstrate the Stirrup!*

## FEATURES & BENEFITS

- The Rambo® Easyup Stirrup incorporates unique and never before seen equine engineering in the stirrup industry weighing in at less than the traditional stirrup for a lightweight (560g) but effective option for the rider.
- Additional ergonomic design 18 degree offset keeps the stirrup sitting optimally to allow the rider to place the foot inside.
- Safety locking feature ensures non-deployment during use.
- Shock absorbent soft polymer grip for maximum stability & grip.
- An additional 6" leverage in mounting your horse/pony whilst out in the field removing the need for finding a suitable mounting block.
- Easy and simple to use.

## SPORTZ-VIBE® DOG RUG

RRHK4V - KKG0

Sportz-Vibe® is a lightweight portable massage rug designed to help boost circulation in dogs. It can be used for high performance dogs as a warm up or recovery rug to help ease soreness and stiffness after long workouts. Sportz-Vibe® can be used on dogs of all ages that may be suffering from back problems or hip conditions.

**RUG SIZE:** XS-XXXL, see chart on page 154.

Product code	Colour
RRHK4V	Black/Black & Green - KKG0

**RAMBO®**  
**IONIC**

## RAMBO IONIC® DOG RUG

RRJK6Ø - KKS0

### FABRIC

Polyester jersey fabric, with wicking inner and Ionic Tourmaline printed therapy.

### FEATURES & BENEFITS

Made from high quality and comfortable jersey fabric as the outer, and a soft inner with the Ionic Tourmaline crystal technology. Tourmaline releases Negative Ions, which cause a change in the water molecules in the dog's body, increasing blood flow to important areas such as the muscles. This brings increased levels of oxygen to the muscles and helps to clear toxins from the body offering therapeutic and calming effects in a smart and comfortable rug. Ideal for use before exercise to prepare muscles for work, and after, to help reduce any lactic acid build up caused by exercise.

Also ideal for pets with arthritis and joint issues to increase mobility and lower discomfort caused by the conditions.

**RUG SIZE:** XXS-XXXL, see chart on page 154.

Product code	Colour
RRJK6Ø	Black/Black & Orange - KKS0

## RAMBO® DOG DRY RUG

RRAM70 - CKW0

BREATHABLE

HIGH WICKING

### FABRIC

Brushed high wicking polyester outer.

### FEATURES & BENEFITS

With our superb Rambo® Dogware fit and our most technical fast drying fabric, this coat makes washing your dog or visits to the beach a breeze. By wicking the moisture from the coat, it dries your dog in a fraction of the time whilst also helping to prevent the dog shedding hairs and water in your car or house whilst wearing it. It is lightweight making it perfect for warm days and self dries after use.

**RUG SIZE:** XS - XXXL see chart on page 154.

# HOW TO FIT YOUR HORSEWARE® RUG

The fit of your rug is extremely important to ensure the comfort of your horse and to prevent rubbing and rug slippage. As horses of the same height at the wither come in a variety of shapes and sizes, it is useful to take certain measurements of your horse.

Using a soft measuring tape, measure from (A) at the centre point of the chest, across the point of the shoulder and to the point (B) at the centre of the tail. When you have the measurement, remove 10cm (4inches) and choose your horse's size from the table below. Bear in mind that every horse is different and that this table is a guide only. We have many different styles to suit all shapes and sizes.

## RUG MEASUREMENTS

MEASUREMENT FROM A TO B			MEASUREMENT FROM C TO D <small>EU Back Seam Equivalent</small>
CM	INCHES	FEET	CM
76	30	2'6	50
84	33	2'9	55
91	36	3'0	60
99	39	3'3	65
106	42	3'6	70
114	45	3'9	75
122	48	4'0	80
130	51	4'3	85
137	54	4'6	90
145	57	4'9	95
152	60	5'0	100
160	63	5'3	110

	7'6					

## RUG WEIGHTS

Horseware® rugs come in a variety of weights. To make it easy, we've created this little temperature scale. It explains the weight available for each rug and is located under each product section.

A turnout rug acts as a waterproof insulator layer, helping to maintain condition in cold weather. However be aware that conditions may vary in a short time span. Always ensure your horse is comfortable at all times.

## WHAT DO THE DIFFERENT CUTS MEAN?

**CLASSIC CUT**, this sits just in front of the wither, the neck cut curves down and around to give the straight classic cut neck with male/female closures.

**SUREFIT NECK DESIGN**, sitting further in front of the wither with a smoother slope to cup the front line of the shoulder and finish deeper in the front of the neck. Sure-fit by name and nature, this design gives a snugger fit yet the deeper neck allows more freedom to graze. Always used in conjunction with our V-Front closure, which provides freedom of shoulder movement to prevent rubbing and aids in reducing wither pressure.

**ALL-IN-ONE** has an integrated neck cover with no seams from ears to tail along the top section. This is the perfect rug for narrow types who tend to loose condition as it has increased thermal insulation all the way through the rug.

## WHAT RUG SUITS MY HORSE?

For a deep shouldered horse with a deep neck and wide build we would recommend the XL cut, which is 20% deeper in the neck and sides to give more room, or you could choose the Optimo style rugs which have the ultimate freedom of movement.

For a deep shouldered, narrow horse we recommend a Surefit design with V-Front closure.

For an average build of horse, go with a classic neck cut or if you prefer to give them more comfort, a V-Front fit would suit.

For high withered narrow horses a Wug® helps to reduce the wither pressure.

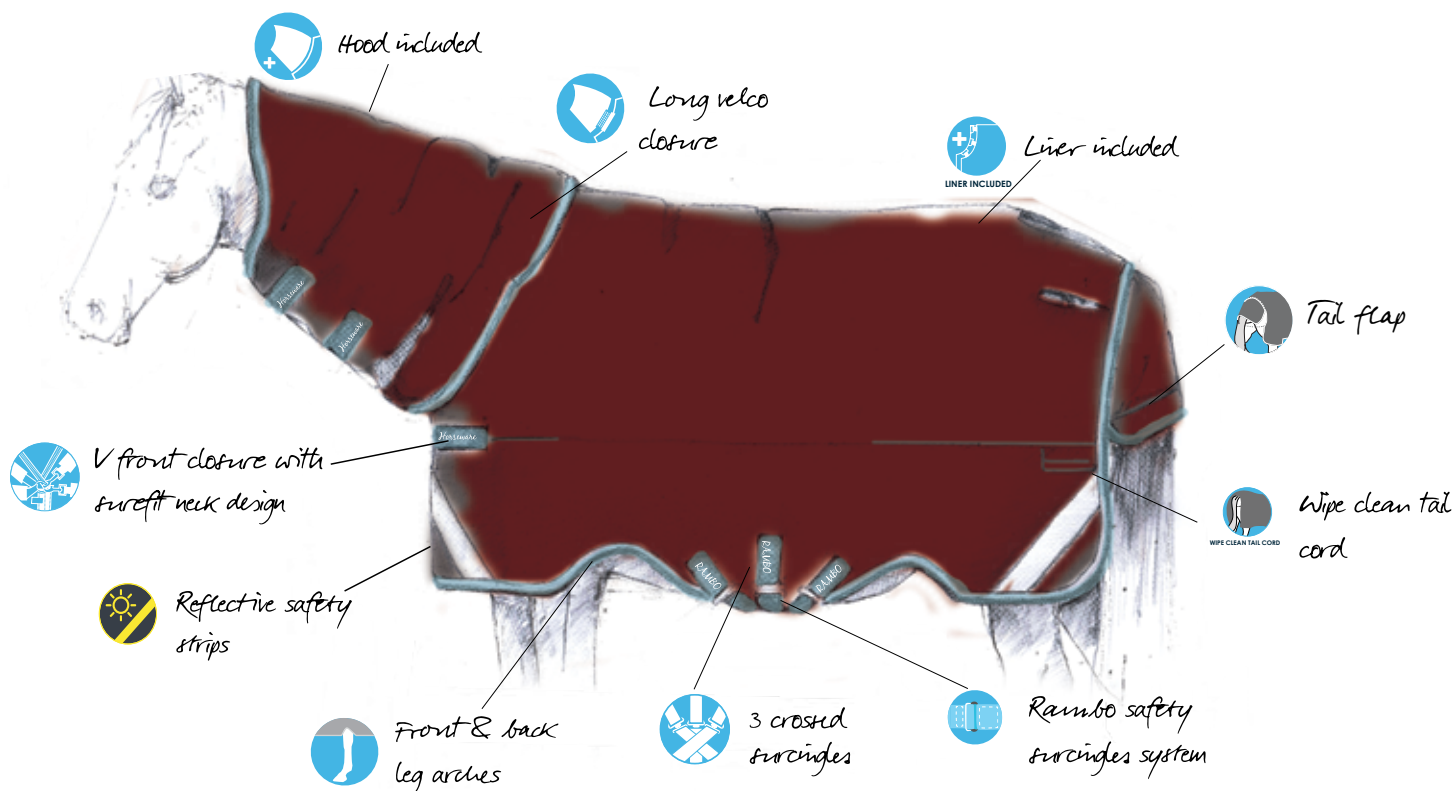

For very narrow or young horses the Wug® or All-In-One design rugs are good choices to help fit their shape and prevent the rugs from slipping.

## WHY SHOULD I USE A HOOD?

Hoods are invaluable tools to keep the horse warm and dry.

Many people forget that the majority of their horse's neck is muscle. Keeping the neck warm keeps the overall horse warmer and reduces warm up time as the muscle is already warm.

If you do not use hoods then the neck is more exposed, and depending on the horse's coat, can make them colder.

## OUR BRILLIANCE IN DESIGN: DECODED

At Horseware® we pride ourselves on innovation not imitation. It's the little differences that make our rugs the best on the market.

**3 YEAR WARRANTY** - 3 year warranty for Rambo® and Rhino® turnouts on waterproofness & stainless steel hardware.

**WATERPROOF** - Keeps your horse dry against the elements. Waterproof to 3000mm.

**WATER RESISTANT** - Protects your horse in light showers.

**BREATHABLE** - Allows moisture to escape keeping your horse dry and comfortable. Breathable to 3000mm for all turnouts.

**DISC FRONT CLOSURE** - It is light, safe and easy to use. Our Disc Front Closure incorporates our four V-Front closure points in a lighter, more flexible design.

**HIGH WICKING** - The fabric is treated to have superior wicking functions, this takes moisture away from the body keeping your horse comfortable after washing or exercise.

**VAMOOSE®** - Unique Horseware® Vamoose anti-insect technology is a synthesized form of a naturally occurring biocide found in the Chrysanthemum flower.

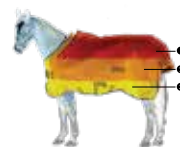

**BARRIER TECHNOLOGY** - Our unique Rhino barrier technology gives you 2 layers of protection. Even if your horse rips the tough outer, the waterproof inner will still keep them warm and dry.

**VARI-LAYER® TECHNOLOGY** - Retains more heat with less weight, superior comfort for your horse.

**DETACHABLE HOOD INCLUDED** - Allows you the flexibility to remove the hood.

**V-FRONT CLOSURE** - Eliminates pressure on the shoulder allowing for more comfort while grazing.

**LINER SYSTEM** - Detachable liners in a variety of weights allows you to easily change your rug's weight depending on the weather. Machine washable and easy to clean.

**SECURE SURCINGLES** - Gives rugs a secure fit around the belly area. The Horsecare® unique Safety Clip System breaks in the event of an emergency.

**STRAIGHT SURCINGLES** - On our deeper cut rugs for optimum belly protection.

**SPLIT TECHNOLOGY** - Patented Split Technology for the ultimate freedom of shoulder movement especially for the broader type horse.

**LEG ARCHES** - Unique design maintains freedom of movement while allowing the rug to stay secure under the belly, giving the belly additional protection.

**XL SIZING** - 20% deeper neck fit and sides for the larger types.

**20%  
Deeper**

**UV PROTECTION** - Prevents bleaching of the coat and protects against harmful UV rays.

**REFLECTIVE MATERIAL** - Superior reflective properties in this fabric due the glass bead technology inside. Gives you peace of mind in the dark evenings and nights.

**RAMBO SAFETY SURCINGLES SYSTEM** - Made up of 3 straps which in an emergency will break away at one end whilst staying attached at the other.

**WIPE CLEAN TAIL CORD** - The elasticated PVC covered cord is easier to clean and more flexible which takes pressure off fittings and straps.

## PATENTS

- The Protector fabric, the fabric used in our Rambo® Fly Buster Vamoose, Rambo® Protector and Rambo® Fly Rider Vamoose is patented in the UK with UK Patent No. 2 423 092, in the USA with US Patent No. 7,795,162 and in Ireland with Irish Patent No. 85793.
- The design of the Rambo® Optimo rugs is accorded to European Patent No. 2353378, and is protected in the USA with US Patent No. 8302371 and US Design Patent No. D725,839.
- The technique of the integrated battery into the Vibration panels of the Ice-Vibe® boots "A therapeutic device", is accorded to European Patent Application No. 14152173.2 and US Patent Application No. 14/180,443, patent pending.
- The mechanism of the Rambo Stirrup is accorded PCT Application No. PCT/EP2013/075990, patent pending and the design of it is protected with Community Design Application No. 002706705-0001 and 002706705-0002.
- The Design of the Micklem® bridle is protected in Europe with European Community Design Registration No. 001086805-0001 and in the USA with D635,724.
- The Design of the Disc-Front Closure is protected in Europe with European Community Design Registration No. 002951087-0001, International Patent Application No. PCT/EP2016/055034, patent pending and US Design Application No. 29/551,971, patent pending.
